ABOUT

I am a dedicated full-stack developer passionate about crafting efficient applications. Skilled in both front-end and back-end technologies, I focus on delivering seamless solutions that align with business needs while continually expanding my expertise.

PROJECT EXPERIENCE

GoBus, **Sunbeam Institute of Information Technology, Pune**　　　　　**Nov 2024 - Present**

GoBus is a full-stack online bus ticket booking platform that simplifies ticket reservations for **customers** while enabling **operators** to register and manage their buses. The system includes a robust **admin panel** for approving operators, managing buses, and handling customer feedback.

🛠 **Technologies Used:**
- Frontend: React.js, Tailwind CSS (Deployed on Vercel)
- Backend: Spring Boot, Java (Core + EE), REST APIs (Deployed on AWS EC2)
- Database: MySQL (Hosted on AWS RDS)
- Authentication & Security: JWT Authentication, Spring Security
- Deployment:
  - Frontend: Vercel (for fast, global CDN delivery)
  - Backend: AWS EC2 (for scalable backend hosting)
- DevOps & CI/CD: GitHub Actions, Jenkins
- API Testing & Documentation: Postman, Swagger
- Automated Testing: Selenium WebDriver, JUnit

WORK EXPERIENCE

Bajaj Finserv Health Limited　　　　　　　　　　　　　　**Mar 2025 - Aug 2025**
Intern

- Worked on automating multiple insurance claim portals including Vidial, Enigma, Vings, and V4 Portals, used for corporate and individual health insurance claim processing.
- Designed and implemented end-to-end automation test cases using Selenium with Java, ensuring high reliability and faster testing cycles across all portals.
- Contributed to the development and monitoring of Prod-Mon, a 24x7 internal production monitoring tool that logs test data, captures failure screenshots, and emails detailed HTML reports with UI debugging logs.
- Coordinated with cross-functional teams via Azure DevOps for bug tracking, story assignment, and workflow management.
- Gained hands-on experience with Playwright as part of exploratory automation initiatives.
- Ensured seamless integration across portals—e.g., claims raised in Vings were tracked and verified in Enigma, and Vidial supported corporate and individual users in managing claims for employees or family members.

EDUCATION

SunBeam Institute of Information Technology,, Pune   **Aug 2024 - Jan 2025**

- Centre for Development of Advanced Computing
- **PG-DAC** (Deploma in Advanced Computing)(**74.13%**)

Government College of Engineering Nagpur   **Feb 2020 - June 2024**

- Rashtrasant Tukadoji Maharaj Nagpur University
- **B.Tech** (Electrical Engineering)(**82.3%**)

Ranglal Kejdiwal High School and Jr. College   **Apr 2019 - Feb 2020**

- Maharashtra State Board of Secondary and Higher Secondary Education
- **HSC** (Science)(**71.54%**)

ADDITIONAL INFORMATION

- **Technical Skills:** JAVA(Core + EE), React, Node, .Net, C#, C++, DevOps, MySQL, JavaScript
- **Languages:** English, Hindi, Marathi
- **Certifications:**JAVA CORE(ApnaCollege), DAC(Diploma in Advance Computing)(CDAC
